Veterinary Medicines Authority**

**PERMIT TO ALLOW EMERGENCY USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR DECONTAMINATION OF CONCRETE SURFACES FROM TOMATO
BROWN RUGOSE FRUIT VIRUS**

PERMIT NUMBER – PER95992

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 2 MAY 2025 TO 31 MAY 2028

Permit Holder:

DEPARTMENT OF ENERGY ENVIRONMENT AND CLIMATE ACTION
1 McKoy Street
WODONGA VIC 3690

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

AQUA-HEALTH SUPERCHLOR XL LIQUID POOL CHLORINE (APVMA No. 45379)
PLUS OTHER REGISTERED PRODUCTS

Containing: 100 g/L CHLORINE PRESENT AS SODIUM HYPOCHLORITE as the only active constituent.

AQUA-HEALTH LIQUID POOL CHLORINE (APVMA No. 93383)
PLUS OTHER REGISTERED PRODUCTS

Containing: 125 g/L CHLORINE PRESENT AS SODIUM HYPOCHLORITE as the only active constituent.

AQUACHLOR LIQUID POOL CHLORINE (APVMA No. 30956)
PLUS OTHER REGISTERED PRODUCTS

Containing: 130 g/L CHLORINE PRESENT AS SODIUM HYPOCHLORITE as the only active constituent.

Restraint:

DO NOT mix with other chlorinating compounds or acids.

DO NOT adjust the pH of spray solutions.

DO NOT allow bystanders to come into contact with the spray.

Directions for Use:

Situation	Target	Rate
Decontamination of concrete surfaces that may have been in contact with plant material infected with Tomato Brown Rugose Fruit Virus	Tomato Brown Rugose Fruit Virus	<p><u>Use a solution of 1% available chlorine, present as sodium hypochlorite</u></p> <p>Amount of product to be added to water to make up 1 litre of a 1% treatment solution:</p> <ul style="list-style-type: none">• <u>100g/L available chlorine as sodium hypochlorite</u><ul style="list-style-type: none">○ 100 mL product (plus 900 mL of water)• <u>125g/L available chlorine as sodium hypochlorite</u><ul style="list-style-type: none">○ 80 mL product (plus 920 mL of water)• <u>130g/L available chlorine as sodium hypochlorite</u><ul style="list-style-type: none">○ 77 mL product (plus 923 mL of water)

Critical Use Comments:

- Wash down infected or potentially infected surfaces thoroughly by washing. Leave wet for 1 hour.
- Apply treatment in well-ventilated areas only.
- Open container and prepare product for use in well-ventilated clean areas free of ammonia and other nitrogen containing compounds, including organic material.
- When spraying the diluted products, use the lowest practical pressure and the largest practical spray droplet size.
- Minimise the amount of dirt and organic material adhering to equipment by cleaning prior to washing with sodium hypochlorite solution.
- Solutions of 1% available chlorine are potentially corrosive. Metal equipment should not be exposed to such solutions for extended periods of time and should be rinsed clean after decontamination.
- DO NOT use on personal items that come into direct or indirect contact with the skin (e.g. inside footwear).

Re-entry statement

DO NOT enter treated area until the spray has dried.

First Aid Instructions:

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126; If swallowed, do NOT induce vomiting. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes wash out immediately with water.

Safety Directions:

Corrosive liquid. Harmful if swallowed. Will damage the eyes. Will irritate the skin. May irritate the nose and throat. Avoid contact with eyes and skin. Do not inhale spray mist. When opening the container, preparing the spray and using the prepared spray, wear chemical resistant clothing buttoned to the neck and wrist and washable hat or single-use hooded chemical resistant overalls, elbow-length chemical resistant gloves, face shield and disposable mist mask covering mouth and nose. Wash hands after use. After each day's use, wash gloves, face shield and contaminated clothing.

Protection of Wildlife, Fish, Crustaceans and Environment

DO NOT contaminate wetlands or watercourses with disinfectant or used containers.

Disposal

Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. Do not burn empty containers or product.

Jurisdiction:

All states and territories.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.
